What is the PHC California formulary?

A formulary is a list of covered drugs selected by PHC California in consultation with a team of health care providers and approved by the California Department of Health Care Services. The formulary represents the prescription therapies believed to be a necessary part of a quality treatment program. PHC California will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a PHC California network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your PHC California Membership Guide.

Can the formulary change?

Generally, if you are taking a drug on our formulary that was covered, we will not discontinue or reduce coverage of the drug except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available as long as it is medically necessary and no alternative drug is available.

If we remove drugs from our formulary, add prior authorization, and/or quantity limits restrictions on a drug, we will notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. To get updated information about the drugs covered by PHC California, please visit our website at www.positivehealthcare.org, or call Member Services at (800) 263-0067, Monday through Friday, 8:00 a.m. to 8:00 p.m. TTY users call 711.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Category

The formulary begins on page 5. The drugs in this formulary are grouped into categories by type. If you know the drug type, look for the category name in the list that begins on page 5. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the index that begins on page 60. The index provides an alphabetical list of all of the drugs included in this document. Generic drugs are listed in the index. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

What are generic drugs?

PHC California covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** PHC California requires your physician to get prior authorization for certain drugs. This means that you will need to get approval from PHC California before you fill your prescriptions. If you don't get approval, the plan may not cover the drug.
- **Quantity Limits:** For certain drugs, PHC California limits the amount of the drug that it will cover. For example, PHC California provides 10 patches per 30 days per prescription of Fentanyl.
- **Restricted Pharmacy Access:** Certain drugs are only available through specific pharmacies. These drugs are considered Specialty Drugs and are designated as SD in the formulary.

You can ask PHC California to make an exception to these restrictions or limits. See the section, "How do I request an exception to the PHC California's formulary?" on page 3 for information about how to request an exception.

What are over-the-counter drugs?

Over-the-counter (OTC) drugs are non-prescription drugs that are not normally covered by a Medi-Cal managed care plan. PHC California does not cover most OTC drugs.

What if my drug is not on the formulary?

If your drug is not included in this list of covered drugs, you should first contact Member Services and ask if your drug is covered. You can contact Member Services at (800) 263-0067, Monday through Friday, 8:00 a.m. to 8:00 p.m. TTY users call 711.

If you learn that PHC California does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by PHC California. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by the plan.
- You can ask PHC California to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the formulary?

You can ask PHC California to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, PHC California limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.

Generally, PHC California will only approve your request for an exception if the alternative drugs included on the plan's formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary or utilization restriction exception. **When you are requesting a formulary or utilization restriction exception you should submit a statement from your physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is

granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

For more information

For more detailed information about your PHC California prescription drug coverage, please review your Membership Guide.

If you have questions about PHC California, please call Member Services at (800) 263-0067, Monday through Friday, 8:00 a.m. to 8:00 p.m. TTY users should call 711. Or visit www.positivehealthcare.org.

PHC California Formulary

The formulary that begins below provides coverage information about the drugs covered by PHC California. If you have trouble finding your drug in the list, turn to the index that begins on page 60. If your prescription is not in this formulary, please call Member Services at (800) 263-0067, Monday through Friday, 8:00 a.m. to 8:00 p.m. TTY users call 711.

The first column of the chart lists the generic drug name. If a brand is available of the drug, the brand name is shown in brackets, for example, ENALAPRIL MALEATE 10 MG TABLET [VASOTEC]. The information in the "Notes" column tells you if PHC California has any special requirements for coverage of the drug. Below is an explanation of most of the abbreviations used in the formulary.

PA – prior authorization required

QL – quantity limit

SD – specialty drug – access limited to specific pharmacies

CR – controlled release

CRM – cream

ER and XR – extended-release

HCL – hydrochloride

HRM – high risk med in the elderly

IM – intramuscular

INJ – injectable solution

IV – intravenous

KCL – potassium chloride

NACL – sodium chloride

OINT – ointment

OPHTH – ophthalmic solution

POWD – powder

SOLN – oral solution

SUPP – suppository

SUSP – suspension

SYRP – syrup

TOP – topical solution
